BIKEMA

BMW MOTORRAD SUZUKI YAMAHA HARLEY DAVIDSON / BUELL HONDA KAWASAKI

ELF, THE MOTORBIKE, SCOOTER AND QUAD BIKE LUBRICANT SPECIALIST

A brand of TOTAL

THE ELF BRAND

The Elf brand has existed for over 40 years. The ELF lubricants retain a modern and hightech brand image. The quality of the products stands out because of Elf's partnerships and its association with competitive motorsports.

THE HISTORY OF THE BRAND

The Elf brand was founded in France in 1967.

Huge 'red circles' were painted on the facades of the petrol stations of the Union Générale des Pétroles distribution network, which used to include several oil companies: Caltex, Avia, La Mure, CFPP and Lacq. Since 2000, it joined the TOTAL group.

THE ELF LUBRICANTS

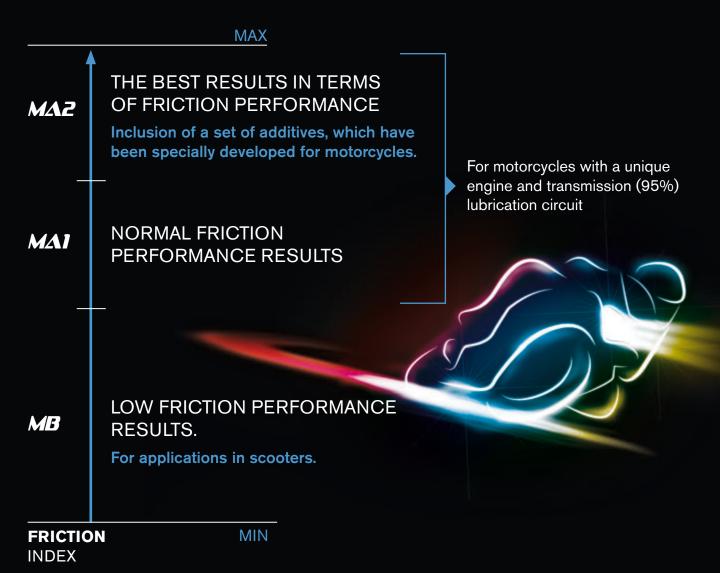

ELF Lubrifiants maintains the image of a competitive high-performance brand. It is a successful, all-conquering and winning brand thanks to its technical and technological innovations.

Currently, this is the expertise that ELF would like to promote. All of these years of research and innovation dedicated to motorsports are the reason why Elf continually provides high-performance and effective oils designed to protect engines.

Use Elf oil and you have a specialist by your side every day!

ENGINE MOTOR 4T JASO T-903 STANDARDS

LUBRICANT SPECIFICATIONS, WHICH INCLUDE:

FRICTION SPECIFICATION (PROTECTION OF GEARS)

EVALUATION ITEM	TEST PROCEDURE	STANDARD INDEX					
		1999 and 2004		APRIL 2006			
		MA	MB	MB	MA1	MA2	
DFI (Dynamic friction characteritic index - DFI)	JASO T 904	≥1,45	<1,45	≥0,50 <1,45	≥1,45 <1,80	≥1,80 <2,50	
SFI (Static friction characterisation index - SFI)		≥1,15	<1,15	≥0,50 <1,15	≥1,15 <1,70	≥1,70 <2,50	
STI (Stop time index - STI)		≥1,55	<1,55	≥0,50 <1,55	≥1,55 <1,90	≥1,90 <2,50	

ENGINE OIL PERFORMANCE

CMCC	G-4, G-5	G-4, G-5	-	-

LEVEL ACEA, ILSAC OR API MINIMUM

- Almost all the MOTORCYCLE products have a minimum API level.
- 2011 update: SG -> SN, GF-4, GF-5 not approved.
- Fuel Economy Grades with friction modifiers.

INCREASE IN THE TEMPERATURE CONDITIONS OF THE ENGINE REQUIRING LUBRICANTS WITH SUPERIOR RESISTANCE TO OXIDATION.

- Inline JASO, API SE and SF are no longer approved since 2006.
- API SG is the minimum level.

PHYSICOCHEMICAL PROPERTIES [PROTECTION OF GEARS]

ITEM	TEST METHOD		LIMIT

MINIMUM PHOSPHORUS RATING FOR PROTECTING THE GEARS

- JASO in-line with the minimum P content since 2006.

THE ROLE OF THE LUBRICANT

WHY MOTORCYCLE IS DIFFERENT FROM PASSENGER CAR OIL?

4-Stroke (4T motorcycles have mainly single circuit for engine, clutch and gearbox. Due to higher requirement for gearbox protection, the motorcycle oil should contain phosphorus to help minimize wear from metal-to-metal contact.

IN THE ENGINE

ELF products provide protection for all engine components: pistons, cams, cylinder sleeves, valve train and crankshaft.

The engine stays clean and runs optimally.

IN THE GEARBOX

ELF technology provides resistance to extreme pressure along with optimum gearbox protection.

IN THE CLUTCH

ELF oils provide a uniform film between the clutch discs.

They prevent malfunction and bring an appropriate coefficient level.

EXTRA INFORMATION

For hot destinations (+20°C), a summer grade of 60 is preferable.

For prepared models and high individual cylinder capacities, the viscosity grade of 20W-60 is recommended.

Possible to use the MOTO 4 TWIN TECH in the three engine sections (Twin Cam (1999) and Sportster Evo generation and later).

Kawasaki

Since 2007, Elf and Kawasaki have confirmed their partnership in motorsports and the endorsement of Elf Moto lubricants in several countries for both first fill and service fill applications. In 2014 Elf continues this support to the official Kawasaki teams in WSBK and WSS. Last year saw fantastic achievements with Kawasaki riders finishing either on top or very close to the top podium spot, plus the hat trick at the Le Mans 24 hours for SRC team, wining for the 3rd time this mythic race, and the same year the Bol d'Or 24 hours.

SCOOTER RANGE

2-STROKE

ELF SCOOTER² SELF MIX

ELF SCOOTER² SELF MIX is a high-quality product, which uses anti-deposit technology and minimises polluting emissions.

elf

F SCOOTER²STREET

ELF SCOOTER²STREET is a new generation lubricant with a dynamic profile, an innovative formula and a remarkable capacity to reduce exhaust emissions.

ELF SCOOTER² STREET MAX

EDD

ELF SCOOTER²STREET MAX is a top-of-the-range lubricant formulated for demanding users, primarily seeking optimum efficiency and guaranteed engine protection.

lubrification ELF Moto.indd 20

ELF SCOOTER⁴CITY 10W-40

ELF SCOOTER⁴ CITY is a special lubricant with an anti-wear formulation, which guarantees optimum engine protection as well as driving comfort.

ELF SCOOTER⁴MAXI CITY 5W-40

ELF SCOOTER⁴ MAXI CITY is designed for the most recent 4-stroke engines, which consume less oil and have longer oil change intervals. Easier cold start, greater flexibility and thermal resistance. ELF SCOOTER⁴ MAXI CITY complies with the latest environmental standards and technological advances.

BIKE CARE

GEAR OIL

ELF MOTO GEAR OIL 10W-40

ELF MOTO GEAR OIL 10W-40 was specially developed for 2-stroke motorcycle gearboxes. It guarantees higher protection of gearboxes and optimum safety when changing gear.

SYNTHETIC BASED OIL

API SJ Pack: 1 L

4T PERFORMANCE

ELF MOTO GEAR OIL 80W-90

ELF MOTO GEAR OIL 80W-90 was specially developed for 4-stroke motorcycle gearboxes. It guarantees an optimal safety when changing gear.

MINERAL OIL API GL 5 Pack: 1 L

ELF MOTO BRAKE FLUID DOT 5,1

ELF MOTO BRAKE FLUID DOT 5.1 is a very highperformance synthetic brake fluid. Silicon-free, for all braking systems, it provides optimum safety. Miscible with all other chemical synthetic fluids of the DOT3, DOT4 and DOT 5.1 type with the exception of silicon DOT 5 fluids and special fluids of the LHM type.

100% SYNTHETIC FMVSS 116 DOT 5.1 Pack: 500 ml

FORK OIL

ELF MOTO FORKOIL SYN 2,5W / 5W / 10W

ELF MOTO FORK OIL SYN for forks and shock absorbers provides maximum safety even in harsh use. Suitable for road and off-road motorcycles.

100% SYNTHETIC OIL Pack: 0,5 L

ELF MOTO FORK OIL 10W / 15W / 20W

ELF MOTO FORK OIL for forks and shock absorbers. Provides optimum safety for the whole suspension system of road and off-road motorcycles.

MINERAL OIL Pack: 0,5 L

BRAKE FLUID

ELF MOTO BRAKE FLUID DOT 4

ELF MOTO BRAKE FLUID DOT 4 is a high-performance brake fluid. Stable and incompressible at all temperatures, it provides optimum safety. Miscible with all other chemical synthetic fluids of the DOT3, DOT4 and DOT 5.1 type with the exception of silicon DOT 5 fluids and special fluids of the LHM type.

100% SYNTHETIC FMVSS 166 DOT 4 Pack : 500 ml

ELF MOTO COOLANT ORGANIC

ELF MOTO COOLANT ORGANIC is 100% organic coolant with an exceptional anti-corrosion property for light alloy circuits. Anti-freeze protection of all cooling system components up to -26°C. Non-aggressive.

ORGANIC AFNOR NFR 15-601, ATSM D3306, BS 6580 Pack: 1 L

ELF MOTO COOLANT MINERAL

ELF MOTO COOLANT MINERAL is a mineral coolant. Optimum protection of circuits, prevents casing corrosion for prolonged engine life. Anti-freeze protection up to -26° C. Does not attack paint in case of contact.

MINERAL AFNOR NFR 15-601, BS 6580 Pack: 1 L

ELF MOTO AIR FILTER OIL

ELF MOTO AIR FILTER OIL is a foam air filter penetrating oil specially developed to reduce the risk of breakdown and to prolong engine life.

BLUE COLOR Pack: 1 L

DEGREASANT

ELF 6 IN 1 MULTI LUBRICANT

ELF 6 IN 1 MULTI LUBRICANT is a multi-purpose aerosol. Lubricates, cleans and protects all the vital components of your motorcycle.

Pack: 400 ml

ELF N CONTACT

ELF N CONTACT is a dry cleaner for brakes, carburettors, plugs, metal surfaces. Degreasant and multi-purpose cleaner for all motorcycle parts. Degreases quickly and leaves no residue. Practical spray to reach the most inaccessible places. Pressure jet to remove the most stubborn dirt..

Pack: 400 ml

CHAINS

ELF MOTO CHAIN LUBE

ELF MOTO CHAIN LUBE is a very high-performance grease for transmission chains. Its formula was specially developed to provide optimum lubrication under the harshest running conditions. Successfully tested during motorcycle grand prix and rally-raids. Leave dry thoroughly.

ORGANIC Pack: 400 ml

ELF MOTO CHAIN PASTE is a new generation extreme-pressure grease for motorcycle chains. Waterproof, provides exceptional lubrication under the harshest driving conditions. To spread with a brush.

ORGANIC Pack: 250 ml

CARE

ELF MOTO SHAMPOO

ELF MOTO SHAMPOO is a ready-to-use concentrated shampoo with protective wax to wash and shine all the parts of your motorcycle. Efficiently removes all greasy marks and residue from fairings, engines, sensitive parts, wheels and rims. Leave no marks when dry. Non-aggressive.

SHAMPOO Pack : 400 ml

ELF MOTO POLISH

ELF MOTO POLISH is a polishing cream conceived to remove micro-scratches and revive all painted surfaces and fairings. Removes all traces of dirt, in particular stubborn insect traces. Prevents paintwork corrosion due to the complex of protective additives.

CREAM
